

RTL8189ES EEPROM Content

REALTEK

Date: 2011/06/12

Version: R03

This document is subject to change without notice. The document contains Realtek confidential information and must not be disclosed to any third party without appropriate NDA.

1. EEPROM (eFuse) Contents

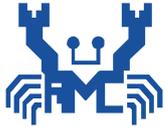

The RTL8189ES is embedded an internal non-volatile memory called eFuse. Values in the eFuse allow default fields in PCI configuration space and I/O space to be overridden following an internal power on reset, or software eFuse auto-load command. The RTL8189ES will auto-load values from the eFuse to these fields in configuration space and I/O space.

The eFuse emulates the structure of a usual EEPROM such as 93C46. We will describe the content and its addressing of the eFuse as we did in 93C46 and will mix the terms of EEPROM and eFuse in the following text. After the initial power on or auto-load command to the eFuse, the RTL8189ES performs a series of EEPROM read operations from the EEPROM addresses 00h to 7Fh. The definition of each EEPROM byte is shown as the below.

Note: It is suggested to obtain Realtek approval before any change on the default settings of the EEPROM.

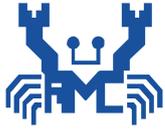

Table 1 RTL8189ES SDIO EEPROM and eFuse CONTENTS

Bytes	Contents	Description	Default
00h	29h	These 2 bytes contain the ID code word for the RTL8189ES. The RTL8189ES will load the contents of the EEPROM into the corresponding location if the ID word is correct.	29h
01h	81h		81h
02h ~ 0Fh	Reserved	Reserved for Realtek. Do not change this field without Realtek's approval.	--
10h	Path A 2.4G	Path A CCK Power Index for Ch 1, 2, Range 0~63.	26h
11h	CCK-1TX Power Index	Path A CCK Power Index for Ch 3, 4, 5, Range 0~63.	26h
12h	(Absolute Value)	Path A CCK Power Index for Ch 6, 7, 8, Range 0~63.	26h
13h	Path A 2.4G	Path A CCK Power Index for Ch 9, 10, 11, Range 0~63.	26h
14h	BW40-1S TX Power Index	Path A CCK Power Index for Ch 12, 13, Range 0~63.	26h
15h	(Absolute Value)	Path A CCK Power Index for Ch 14, Range 0~63.	26h
16h	Path A 2.4G	Path A 2G BW40-1S Power Index for Ch 1, 2, Range 0~63.	28h
17h	BW40-1S	Path A 2G BW40-1S Power Index for Ch 3, 4, 5, Range 0~63.	28h
18h	TX Power Index (Absolute Value)	Path A 2G BW40-1S Power Index for Ch 6, 7, 8, Range 0~63.	28h
19h	Path A 2.4G	Path A 2G BW40-1S Power Index for Ch 9, 10, 11, Range 0~63.	28h
1Ah		Path A 2G BW40-1S Power Index for Ch 12, 13, 14 Range 0~63.	28h
